

At ESOP ezee, our goal is to make ESOPs successful at early-stage companies. In this endeavour, “Perspectives” is an initiative to connect with early-stage companies and their Founders to share knowledge and updates in this domain. We hope this will add value to our readers and their perspectives. We would highly appreciate feedback and suggestions for making this more helpful to the readers.

Food for Thought

What is the right time to think of ESOPs?

This is a very common question which all start ups have. Is it too early – Am I too late? ESOPs is all about sharing the value created and so long as your business is going to create incremental value, its never too early or too late. To get some more insights, please click [here](#)
